EQR DATA DICTIONARY

VERSION 4.0

DOCKET NO. RM23-9-000

**IDENTIFICATION DATA
AGENT**

Field Name	Required	Value	Definition
Filer Unique Identifier	Field and associated requirements are dependent on future system design.		

**IDENTIFICATION DATA
SELLER**

Field Name	Required	Value	Definition
Filer Unique Identifier	Field and associated requirements are dependent on future system design.		
Seller	Y	Unrestricted text	The name of the public utility that is authorized to make sales as indicated in the company's FERC tariff(s) under section 205 of the Federal Power Act or the name of the non-public utility that is required to file the EQR under section 220 of the Federal Power Act.
Seller CID	Y	A 6-digit integer preceded by the letter "C"	The Company Identifier (CID) obtained through the Commission's Company Registration system.
Seller Contact	Y	Unrestricted text	The eRegistered person authorized by the Seller to be contacted about the Seller's EQR.
Seller Contact Phone	Y	Phone number	The eRegistered phone number of the Seller Contact.
Seller Contact Email	Y	A valid email address	The eRegistered email of the Seller Contact.

Field Names in bold font indicate a new data field in Version 4.0 of the EQR Data Dictionary.

**IDENTIFICATION DATA
SELLER**

Field Name	Required	Value	Definition
Filing Quarter	Y	1, 2, 3, or 4	A one digit reference number to indicate the quarter for which the filing is submitted. 1 = First Quarter; 2 = Second Quarter; 3 = Third Quarter; and 4 = Fourth Quarter.
Filing Year	Y	YYYY	A four-digit reference number to indicate the year for which the data is submitted.
Qualifying Facility	Y	Y (Yes), N (No)	The Seller is a Qualifying Facility as defined under 18 C.F.R. §§ 292.201-211.
Notes	Y For all refilings, include a reason for refiling and a description or summary of revisions.	Unrestricted text	Descriptive text accompanying all refilings.

Field Names in bold font indicate a new data field in Version 4.0 of the EQR Data Dictionary.

CONTRACT DATA

Field Name	Required	Value	Definition
Contract Unique ID	Field and associated requirements are dependent on future system design.		
Seller	Y	Unrestricted text	The name of the public utility that is authorized to make sales as indicated in the company's FERC tariff(s) under section 205 of the Federal Power Act or the name of the non-public utility that is required to file the EQR under section 220 of the Federal Power Act.
Customer is RTO/ISO	Y	Y (Yes), N (No)	Sellers should indicate whether the Customer is an RTO/ISO. If the Customer is an RTO/ISO, Sellers should indicate the name in Customer Company Name, as identified in the Commission's Company Registration system, and as provided on the Commission's website.

CONTRACT DATA

Field Name	Required	Value	Definition
Customer Company Name	Y	Unrestricted text	The name of the purchaser of contract products and services. If the purchaser is an RTO/ISO, then use the RTO/ISO name from the list of allowable entries. If the purchaser is not an RTO/ISO and is associated with a CID, then use the spelling of the name reflected in the Commission's Company Registration system. If the purchaser is not an RTO/ISO and is not associated with a CID, then use the spelling of the purchaser's name reflected in the Commission-generated Identifier (GID), if applicable.
Contract Affiliate	Y	Y (Yes), N (No)	The Customer is an affiliate as defined under 18 C.F.R. § 35.36(a)(9) or a division of the specified entity that operates as a functional unit as defined under 18 C.F.R. § 358.3.

CONTRACT DATA

Field Name	Required	Value	Definition
FERC Tariff Reference	Y	Unrestricted text	The FERC Tariff Reference cites the document that specifies the terms and conditions under which a Seller is authorized to make transmission sales, power sales or sales of related jurisdictional services at cost-based rates or at market-based rates. Sellers should report the FERC Tariff Reference in a manner consistent with the tariff, rate schedule or service agreement reported in the eTariff system, including the Tariff Title, Section Title and Tariff Record Title assigned to the tariff, rate schedule or service agreement. The FERC Tariff Reference is not a docket number. If the sales are market-based, the tariff that is specified in the Commission order granting the Seller market-based rate authority must be listed. If the sales are cost-based, the Seller must specify the FERC-approved tariff or rate schedule under which the sales are made. If a non-public utility (NPU) Seller has a FERC-approved reciprocity transmission tariff, then the NPU should enter the tariff title of the reciprocity tariff. If an NPU does not have a FERC Tariff Reference, the Seller should enter "NPU."
Contract Service Agreement ID	Y	Unrestricted text	A unique identifier assigned by the Seller to each service agreement that can be used by the Seller to provide the agreement to the Commission, if requested. The Contract Service Agreement ID should seldom change throughout the life of the contract.

CONTRACT DATA

Field Name	Required	Value	Definition
Contract Execution Date	Y	YYYYMMDD	The date the contract is signed. If the parties signed on different dates, then report the most recent date signed. If there is no signed contract, then report the date upon which the parties made the legally binding agreement on the price of a transaction.
Commencement Date of Contract Terms	Y	YYYYMMDD	The date the terms of the contract reported in Contract Affiliate, Contract Termination Date, Extension Provision Description, Class Name, Term Name, Increment Name, Increment Peaking Name, Product Type, Product Name, Quantity, Units, Rate, Rate Minimum, Rate Maximum, Rate Description, Rate Units, Point of Receipt Balancing Authority Area, Point of Receipt Specific Location, Point of Delivery Balancing Authority Area, Point of Delivery Specific Location, Begin Date, and End Date became effective. If there are one or more amendments to these terms in one quarter, report the effective date of the most recent amendment. If the contract or the most recent reported amendment does not have an effective date, the date when service began pursuant to the contract or most recent reported amendment may be used.
Contract Termination Date	If specified in contract. If not specified in the contract, field should remain blank.	YYYYMMDD	The date that the contract expires.

CONTRACT DATA

Field Name	Required	Value	Definition
Actual Termination Date	If contract terminated. If contract has not terminated, field should remain blank.	YYYYMMDD	The date the contract actually terminates.
Extension Provision Description	Required. If not specified in contract, enter None or N/A.	Unrestricted text	Description of terms that provide for the continuation of the contract.
Class Name	Y	F - Firm	For transmission sales, a service or product that always has priority over non-firm service. For power sales, a service or product that is not interruptible for economic reasons.
Class Name	Y	NF - Non-Firm	For transmission sales, a service that is reserved and/or scheduled on an as-available basis and is subject to curtailment or interruption at a lesser priority compared to Firm service. For an energy sale, a service or product for which delivery or receipt of the energy may be interrupted for any reason or no reason, without liability on the part of either the buyer or seller.
Class Name	Y	UP - Unit Power Sale	Designates a dedicated sale of energy and capacity from one or more than one specified generation unit(s).
Class Name	Y Cannot be reported in conjunction with another Class Name	N/A - Not Applicable	To be used only when the other available Class Names do not apply.

CONTRACT DATA

Field Name	Required	Value	Definition
Term Name	Y	LT - Long Term ST - Short Term Evergreen or Master Agreement N/A - Not applicable	The duration of a contract. Contracts with durations of one year or greater are long-term. Contracts with durations less than one year are short-term. Contracts without a specified termination date are evergreen or master agreements.
Increment Name	Y	5 - Five-Minute	Terms of the contract (if specifically noted in the contract) set for more than 0 minutes and less than or equal to 5 minutes (> 0 and ≤ 5 minutes).
Increment Name	Y	15 - Fifteen-Minute	Terms of the contract (if specifically noted in the contract) set for more than 5 minutes and less than or equal to 15 minutes (> 5 and ≤ 15 minutes).
Increment Name	Y	H - Hourly	Terms of the contract (if specifically noted in the contract) set for more than 15 minutes and less than or equal to 6 hours (> 15 minutes and ≤ 6 hours).
Increment Name	Y	D - Daily	Terms of the contract (if specifically noted in the contract) set for more than 6 and up to 60 hours (> 6 and ≤ 60 hours).
Increment Name	Y	W - Weekly	Terms of the contract (if specifically noted in the contract) set for over 60 hours and up to 168 hours (> 60 and ≤ 168 hours).
Increment Name	Y	M - Monthly	Terms of the contract (if specifically noted in the contract) set for more than 168 hours up to, but not including, one year (> 168 hours and < 1 year).

CONTRACT DATA

Field Name	Required	Value	Definition
Increment Name	Y	Y - Yearly	Terms of the contract (if specifically noted in the contract) set for one year or more (≥ 1 year).
Increment Name	Y	N/A - Not Applicable	To be used only when other available Increment Names do not apply.
Increment Peaking Name	Y	FP - Full Period	The product described may be sold during those hours designated as on-peak and off-peak, or during a combination of hours designated as on-peak and off-peak at the point of delivery.
Increment Peaking Name	Y	OP - Off-Peak	The product described may be sold only during those hours designated as off-peak at the point of delivery.
Increment Peaking Name	Y	P - Peak	The product described may be sold only during those hours designated as on-peak at the point of delivery.
Increment Peaking Name	Y	N/A - Not Applicable	To be used only when the increment peaking name is not specified in the contract.
Product Type	Y	CB - Cost-Based	The product is sold under a FERC-approved cost-based rate.
Product Type	Y	MB - Market-Based	The product is sold under a FERC-approved market-based rate.
Product Type	Y	T - Transmission	The product is sold under a FERC-approved transmission tariff or rate schedule.
Product Type	Y	NPU - Non-Public Utility	The product is sold by a non-public utility that is required to file the EQR under section 220 of the Federal Power Act.
Product Type	Y	Other	The product cannot be characterized by the other Product Types.

CONTRACT DATA

Field Name	Required	Value	Definition
Product Name	Y	See Product Name Table, Appendix A.	Description of product being offered.
Quantity	If specified in contract. If not specified in the contract, field should remain blank.	Number with up to 4 decimals	Quantity for the contract product identified.
Units	If specified in contract. If not specified in the contract, field should remain blank.	See Units Table, Appendix C.	Measure stated in the contract for the product sold.
Rate	Y Must be reported if specified in the contract.	Number with up to 4 decimals	The charge for the product per unit as stated in the contract.
Rate Minimum	Y Must be reported if specified in the contract.	Number with up to 4 decimals	Minimum rate to be charged per the contract, if a range is specified.

CONTRACT DATA

Field Name	Required	Value	Definition
Rate Maximum	Y Must be reported if specified in the contract.	Number with up to 4 decimals	Maximum rate to be charged per the contract, if a range is specified.
Rate Description	Y	Unrestricted text	Text description of rate. If the rate is currently available in eLibrary or eTariff, or successors of these systems, a citation to the relevant FERC tariff information must be provided, including either the FERC Accession Number or the Tariff Title, Section Title and Tariff Record Title. If the rate is not available in eLibrary or eTariff, or successors of these systems, include the rate algorithm, if rate is calculated in the contract, including bases and methods of calculations, and a detailed citation to the contract.
Rate Units	If specified in the contract	See Rate Units Table, Appendix D.	Measure stated in the contract for the product sold.
Point of Receipt Balancing Authority Area (PORBAA)	If specified in contract. If not specified in the contract, field should remain blank.	See the list of allowable entries on the EQR website.	The registered Balancing Authority Area where the jurisdictional transmission or transmission-related product is received, if designated in the contract. The Balancing Authority Area will be identified with the abbreviation used in OASIS applications. If receipt occurs at a trading hub, then report the standardized hub name from the list of allowable names.

CONTRACT DATA

Field Name	Required	Value	Definition
Point of Receipt Specific Location (PORSL)	Required for long-term, firm, point-to-point transmission agreements.	Unrestricted text.	The specific location at which the jurisdictional transmission or transmission-related product is received, if designated in the contract.
Point of Delivery Balancing Authority Area (PODBAA)	If specified in Contract. If not specified in the contract, field should remain blank.	See the EQR website for list of allowable values.	The registered Balancing Authority Area where a jurisdictional product is delivered and/or service ends for a transmission or transmission-related jurisdictional product. The Balancing Authority will be identified with the abbreviation used in OASIS applications. If delivery occurs at the interconnection of two Balancing Authority Areas, the Balancing Authority Area that the product is entering should be used. If delivery occurs at a trading hub, then report the standardized hub name from the list of allowable names.
Point of Delivery Specific Location (PODSL)	Required for long-term, firm, point-to-point transmission contracts.	Unrestricted text.	The specific location at which the jurisdictional transmission or transmission-related product is delivered if designated in the contract.

CONTRACT DATA

Field Name	Required	Value	Definition
Begin Date	If specified in contract. If not specified in the contract, field should remain blank.	YYYYMMDD Note, the date format may change as a result of future system design.	First date for the sale of the product at the rate specified.
End Date	If specified in contract. If not specified in the contract, field should remain blank.	YYYYMMDD Note, the date format may change as a result of future system design.	Last date for the sale of the product at the rate specified.
Product Name Description*	Required if Other or Bundled are selected as the Product Name		A description of the product(s) if selecting Other as the Product Name, or two or more of the Bundled services from among the list of allowable Product Names.

* Field Names in bold font indicate a new data field in Version 4.0 of the EQR Data Dictionary.

TRANSACTION DATA

Field Name	Required	Value	Definition
Transaction Unique ID	Field and associated requirements are dependent on future system design.		
Seller	Y	Unrestricted text	The name of the public utility that is authorized to make sales as indicated in the company's FERC tariff(s) under section 205 of the Federal Power Act or the name of the non-public utility that is required to file the EQR under section 220 of the Federal Power Act.
Customer Company Name	Y	Unrestricted text	The name of the purchaser of contract products and services. If the purchaser is an RTO/ISO, then use the RTO/ISO name from the list of allowable entries. If the purchaser is not an RTO/ISO and is associated with a CID, then use the spelling of the name reflected in the Commission's Company Registration system. If the purchaser is not an RTO/ISO and is not associated with a CID, then use the spelling of the purchaser's name reflected in the Commission-generated Identifier (GID), if applicable.

TRANSACTION DATA

Field Name	Required	Value	Definition
FERC Tariff Reference	Y	Unrestricted text	The FERC Tariff Reference cites the document that specifies the terms and conditions under which a Seller is authorized to make transmission sales, power sales or sales of related jurisdictional services at cost-based rates or at market-based rates. Sellers should report the FERC Tariff Reference in a manner consistent with the tariff, rate schedule or service agreement reported in the eTariff system, including the Tariff Title, Section Title and Tariff Record Title assigned to the tariff, rate schedule or service agreement. The FERC Tariff Reference is not a docket number. If the sales are market-based, the tariff that is specified in the Commission order granting the Seller market-based rate authority must be listed. If the sales are cost-based, the Seller must specify the FERC-approved tariff or rate schedule under which the sales are made. If a non-public utility (NPU) Seller has a FERC-approved reciprocity transmission tariff, then the NPU should enter the tariff title of the reciprocity tariff. If an NPU does not have a FERC Tariff Reference, the Seller should enter "NPU."

TRANSACTION DATA

Field Name	Required	Value	Definition
Contract Service Agreement ID	Y	Unrestricted text	A unique identifier assigned by the Seller to each service agreement that can be used by the Seller to provide the agreement to the Commission, if requested. The Contract Service Agreement ID should seldom change throughout the life of the contract.
Transaction Identifier	Y	Unrestricted text	A reference number assigned by the Seller for each transaction or multiple related products in a transaction.
Transaction Begin Date	Y	YYYYMMDDHHMM	First date and time the product is sold at the specified price.
Transaction End Date	Y	YYYYMMDDHHMM	Last date and time the product is sold at the specified price.
Trade Date	Y	YYYYMMDD	The date upon which the parties made the legally binding agreement on the price of a transaction. If the Trade Date cannot be identified, then report the Contract Execution Date in the Trade Date data field.
Type of Rate	Y	Fixed	A fixed charge per unit of consumption. No variables are used to determine this rate.
Type of Rate	Y	Formula	A calculation of a rate based upon a formula that does not contain an electric index component.

TRANSACTION DATA

Field Name	Required	Value	Definition
Type of Rate	Y	Electric Index	A calculation of a rate based upon an index or a formula that contains an electric index component. An electric index includes an index published by an index publisher, such as ICE and the Chicago Mercantile Exchange Group (CME), or a price published by an RTO/ISO (e.g., PJM West or Illinois Hub). If the transaction uses an electric-based index in any way, either as a base price or to determine a basis, report as electric index.
Type of Rate	Y	RTO/ISO	If the price is the result of an RTO/ISO market or the sale is made to the RTO/ISO.
Time Zone	Y	See Time Zone Table, Appendix B	The time zone where the transaction takes place.
Point of Delivery Balancing Authority Area (PODBAA)	Y	See the EQR website for list of allowable values.	The registered Balancing Authority Area abbreviation used in OASIS applications. If delivery occurs at a trading hub, then report the standardized hub name from the list of allowable names.
Point of Delivery Specific Location (PODSL)	Y PODSL may be left blank if a hub name is reported in PODBAA in Transaction data.	Unrestricted text.	The specific location at which the product is delivered. If delivery occurs at a trading hub, then the specific location is not required.

TRANSACTION DATA

Field Name	Required	Value	Definition
Class Name	Y	F - Firm	A sale, service or product that is not interruptible for economic reasons.
Class Name	Y	NF - Non-firm	A sale for which delivery or receipt of the energy may be interrupted for any reason or no reason, without liability on the part of either the buyer or seller.
Class Name	Y	UP - Unit Power Sale	Designates a dedicated sale of energy and capacity from one or more than one specified generation unit(s).
Class Name	Y	N/A - Not Applicable	To be used only when the other available class names do not apply.
Term Name	Y	LT - Long Term ST - Short Term N/A - Not Applicable	Transactions with durations of one year or greater are long-term. Transactions with shorter durations are short-term.
Increment Name	Y	5 - Five-Minute	Terms of the particular sale set for more than 0 minutes and less than or equal to 5 minutes (> 0 and ≤ 5 minutes).
Increment Name	Y	15 - Fifteen-Minute	Terms of the particular sale set for more than 5 minutes and less than or equal to 15 minutes (> 5 and ≤ 15 minutes).
Increment Name	Y	H - Hourly	Terms of the particular sale set for more than 15 minutes and less than or equal to 6 hours (> 15 minutes and ≤ 6 hours). Includes LMP based sales in ISO/RTO markets.

TRANSACTION DATA

Field Name	Required	Value	Definition
Increment Name	Y	D - Daily	Terms of the particular sale set for more than 6 and up to 60 hours (> 6 and ≤ 60 hours). Includes sales over a peak or off-peak block during a single day.
Increment Name	Y	W - Weekly	Terms of the particular sale set for over 60 hours and up to 168 hours (> 60 and ≤ 168 hours). Includes sales for a full week and sales for peak and off-peak blocks over a particular week.
Increment Name	Y	M - Monthly	Terms of the particular sale set for set for more than 168 hours up to, but not including, one year (> 168 hours and < 1 year). Includes sales for full month or multi-week sales during a given month.
Increment Name	Y	Y - Yearly	Terms of the particular sale set for one year or more (≥ 1 year). Includes all long-term contracts with defined pricing terms (fixed-price, formula, or index).
Increment Name	Y	N/A - Not Applicable	To be used only when other available increment names do not apply.
Increment Peaking Name	Y	FP - Full Period	The product described was sold during Peak and Off-Peak hours.
Increment Peaking Name	Y	OP - Off-Peak	The product described was sold only during those hours designated as off-peak at the point of delivery.
Increment Peaking Name	Y	P - Peak	The product described was sold only during those hours designated as on-peak at the point of delivery.
Increment Peaking Name	Y	N/A - Not Applicable	To be used only when the other available increment peaking names do not apply.

TRANSACTION DATA

Field Name	Required	Value	Definition
Product Name	Y	See Product Names Table, Appendix A.	Description of product being offered.
Transaction Quantity	Y	Number with up to 10 decimals.	The quantity of the product in this transaction record.
Price	Y	Number with up to 10 decimals.	Actual price charged for the product per unit. The price reported cannot be averaged or otherwise aggregated.
Rate Units	Y	See Rate Units Table, Appendix D	Measure appropriate to the price of the product sold.
Standardized Quantity	Y	Number with up to 10 decimals.	For Product Names Energy, Capacity, and Booked Out Power only. Specify the quantity in MWh if the product is Energy or Booked Out Power and specify the quantity in MW-month if the product is Capacity.
Standardized Price	Y	Number with up to 10 decimals.	For Product Names Energy, Capacity, and Booked Out Power only. Specify the price in \$/MWh if the product is Energy or Booked Out Power and specify the price in \$/MW-month if the product is Capacity.
Total Transmission Charge	Y If no Transmission Charge to report, enter "0."	Number with up to 2 decimals.	Payments received for transmission services when explicitly identified.
Total Transaction Charge	Y	Number with up to 2 decimals	Transaction Quantity times Price plus Total Transmission Charge.

Note: Bold font indicates a new Product Name in Version 4.0 of the EQR Data Dictionary.

APPENDIX A - PRODUCT NAMES

Product Name	Contract Product	Transaction Product	Definition
BLACK START SERVICE	Y	Y	Service available after a system-wide blackout where a generator participates in system restoration activities without the availability of an outside electric supply (Ancillary Service).
BOOKED OUT POWER		Y	Energy or capacity contractually committed bilaterally for delivery but not actually delivered due to some offsetting or countervailing trade (Transaction only).
BUNDLED	Y	Y	Services provided for two or more products listed in Appendix A that are sold and priced together. The bundled components must be listed as spelled in Appendix A in the Product Name Description field, separated by a delimiter.
CAPACITY	Y	Y	A quantity of demand that is charged on a \$/KW or \$/MW basis.
CUSTOMER CHARGE	Y	Y	Fixed contractual charges assessed on a per customer basis that could include billing service.
DIRECT ASSIGNMENT FACILITIES CHARGE	Y		Charges for facilities or portions of facilities that are constructed or used for the sole use/benefit of a particular transmission customer.
EMERGENCY ENERGY	Y	Y	Energy or capacity provided to another entity during critical situations.
ENERGY	Y	Y	A quantity of electricity that is sold or transmitted over a period of time.

APPENDIX A - PRODUCT NAMES

Product Name	Contract Product	Transaction Product	Definition
ENERGY IMBALANCE	Y	Y	Service provided when a difference occurs between the scheduled and the actual delivery of energy to a load obligation (Ancillary Service). For Contracts, reported if the contract provides for sale of the product. For Transactions, sales by third-party providers (i.e., non-transmission function) are reported.
ENERGY IMBALANCE MARKET	Y	Y	Product sold in a Commission-approved energy imbalance market for the purpose of balancing real-time supply and demand.
EXCHANGE	Y	Y	Transaction whereby the receiver accepts delivery of energy for a supplier's account and returns energy at times, rates, and in amounts as mutually agreed if the receiver is not an RTO/ISO.
FUEL CHARGE	Y	Y	Charge based on the cost or amount of fuel used for generation.
GENERATOR IMBALANCE	Y	Y	Service provided when a difference occurs between the output of a generator located in the Transmission Provider's Control Area and a delivery schedule from that generator to (1) another Control Area or (2) a load within the Transmission Provider's Control Area over a single hour (Ancillary Service). For Contracts, reported if the contract provides for sale of the product. For Transactions, sales by third-party providers (i.e., non-transmission function) are reported.

APPENDIX A - PRODUCT NAMES

Product Name	Contract Product	Transaction Product	Definition
GRANDFATHERED BUNDLED	Y	Y	Services provided for bundled transmission, ancillary services and/or energy under contracts effective prior to Order No. 888's OATTs.
INTERCONNECTION AGREEMENT	Y		Contract that provides the terms and conditions for a generator, distribution system owner, transmission owner, transmission provider, or transmission system to physically connect to a transmission system or distribution system.
MEMBERSHIP AGREEMENT	Y		Agreement to participate and be subject to rules of a system operator.
MUST RUN AGREEMENT	Y		An agreement that requires a unit to run.
NEGOTIATED-RATE TRANSMISSION	Y	Y	Transmission performed under a negotiated rate contract (applies only to merchant transmission companies).
NETWORK INTEGRATION TRANSMISSION SERVICE AGREEMENT	Y		Transmission service under contract providing network service.
NETWORK OPERATING AGREEMENT	Y		An executed agreement that contains the terms and conditions under which a network customer operates its facilities and the technical and operational matters associated with the implementation of network integration transmission service.
OTHER	Y	Y	Any product or combination of products not listed in Appendix A.
POINT-TO-POINT AGREEMENT	Y		Transmission service under contract between specified Points of Receipt and Delivery.

APPENDIX A - PRODUCT NAMES

Product Name	Contract Product	Transaction Product	Definition
PRIMARY FREQUENCY RESPONSE	Y	Y	Service provided as a stand-by resource to support autonomous, pre-programmed changes in output to rapidly arrest large changes in frequency until dispatched resources can take over.
RAMPING	Y	Y	The ability to change the output of real power from a generating unit per some unit of time.
REACTIVE SUPPLY & VOLTAGE CONTROL	Y	Y	Production or absorption of reactive power to maintain voltage levels on transmission systems (Ancillary Service).
REAL POWER TRANSMISSION LOSS	Y	Y	The loss of energy, resulting from transporting power over a transmission system.
REGULATION & FREQUENCY RESPONSE	Y	Y	Service providing for continuous balancing of resources (generation and interchange) with load, and for maintaining scheduled interconnection frequency by committing on-line generation where output is raised or lowered and by other non-generation resources capable of providing this service as necessary to follow the moment-by-moment changes in load (Ancillary Service). For Contracts, reported if the contract provides for sale of the product. For Transactions, sales by third-party providers (i.e., non-transmission function) are reported.
RENEWABLE ENERGY CREDIT (REC)	Y	Y	The sale of jurisdictional renewable energy credits (RECs).

APPENDIX A - PRODUCT NAMES

Product Name	Contract Product	Transaction Product	Definition
REQUIREMENTS SERVICE	Y	Y	Firm, load-following power supply necessary to serve a specified share of customer's aggregate load during the term of the agreement. Requirements service may include some or all of the energy, capacity and ancillary service products. (If the components of the requirements service are priced separately, they should be reported separately in the transactions tab.)
SCHEDULE SYSTEM CONTROL & DISPATCH	Y	Y	Scheduling, confirming and implementing an interchange schedule with other Balancing Authorities, including intermediary Balancing Authorities providing transmission service, and ensuring operational security during the interchange transaction (Ancillary Service).
SPINNING RESERVE	Y	Y	Unloaded synchronized generating capacity that is immediately responsive to system frequency and that is capable of being loaded in a short time period or non-generation resources capable of providing this service (Ancillary Service). For Contracts, reported if the contract provides for sale of the product. For Transactions, sales by third-party providers (i.e., non-transmission function) are reported.

APPENDIX A - PRODUCT NAMES

Product Name	Contract Product	Transaction Product	Definition
SUPPLEMENTAL RESERVE	Y	Y	Service needed to serve load in the event of a system contingency, available with greater delay than SPINNING RESERVE. This service may be provided by generating units that are on-line but unloaded, by quick-start generation, or by interruptible load or other non-generation resources capable of providing this service (Ancillary Service). For Contracts, reported if the contract provides for sale of the product. For Transactions, sales by third-party providers (i.e., non-transmission function) are reported.
SYSTEM OPERATING AGREEMENTS	Y		An executed agreement that contains the terms and conditions under which a system or network customer shall operate its facilities and the technical and operational matters associated with the implementation of network.
TOLLING ENERGY	Y	Y	Energy sold from a plant whereby the buyer provides fuel to a generator (seller) and receives power in return for pre-established fees.
TRANSMISSION OWNERS AGREEMENT	Y		The agreement that establishes the terms and conditions under which a transmission owner transfers operational control over designated transmission facilities.
UPLIFT	Y	Y	A make-whole payment by an RTO/ISO to a utility.

APPENDIX B - TIME ZONE

Time Zone	Definition
AD	Atlantic Daylight
AP	Atlantic Prevailing
AS	Atlantic Standard
CD	Central Daylight
CP	Central Prevailing
CS	Central Standard
ED	Eastern Daylight
EP	Eastern Prevailing
ES	Eastern Standard
MD	Mountain Daylight
MP	Mountain Prevailing
MS	Mountain Standard
PD	Pacific Daylight
PP	Pacific Prevailing
PS	Pacific Standard

APPENDIX C - UNITS

Units	Definition
KV	Kilovolt
KVA	Kilovolt Amperes
KVR	Kilovar
KW	Kilowatt
KWH	Kilowatt Hour
KW-DAY	Kilowatt Day
KW-MO	Kilowatt Month
KW-WK	Kilowatt Week
KW-YR	Kilowatt Year
MVAR-YR	Megavar Year
MW	Megawatt
MWH	Megawatt Hour
MW-DAY	Megawatt Day
MW-MO	Megawatt Month
MW-WK	Megawatt Week
MW-YR	Megawatt Year
RKVA	Reactive Kilovolt Amperes
FLAT RATE	Flat Rate

Note: Bold font indicates new Rate Units in Version 4.0 of the EQR Data Dictionary.

APPENDIX D - RATE UNITS

Rate Units	Definition
\$/KV	dollars per kilovolt
\$/KVA	dollars per kilovolt amperes
\$/KVR	dollars per kilovar
\$/KW	dollars per kilowatt
\$/KWH	dollars per kilowatt hour
\$/KW-DAY	dollars per kilowatt day
\$/KW-MO	dollars per kilowatt month
\$/KW-WK	dollars per kilowatt week
\$/KW-YR	dollars per kilowatt year
\$/MW	dollars per megawatt
\$/MWH	dollars per megawatt hour
\$/MW-DAY	dollars per megawatt day
\$/MW-MO	dollars per megawatt month
\$/MW-WK	dollars per megawatt week
\$/MW-YR	dollars per megawatt year
\$/MVAR-YR	dollars per megavar year
\$/RKVA	dollars per reactive kilovar amperes
CENTS	cents
CENTS/KVR	cents per kilovolt amperes
CENTS/KWH	cents per kilowatt hour
FLAT RATE	rate not specified in any other units
MILLS/KWH	mills per kilowatt hour
MW/MIN	megawatts per minute
MW/0.1 HZ	megawatts per 0.1 hertz
